About Us

Imperial Academy, founded in 2010, believes that all children are capable individuals with great potential that blossom at early ages. We provide a wide range of after-school classes and activities aiming to facilitate children's Multiple Intelligence development.
We emphasize the role of the learning environment and the different ways that children express themselves which match with Reggio Emilia Approach. We aim to provide children in Asia with an enjoyable and enlightening journey towards English Language acquisition and developing a lifelong appetite for knowledge.
Our learning centre has been based in a district with both top and well-known local and international schools in Hong Kong for over 13 years.
