

Waterlily Wonder

MASTERPIECE APPRECIATION

Inspired by Claude Monet, this project, "Monet's Waterlily Wonder" celebrates the enchanting effects of light and colour in Impressionist art. Children will design and create their own waterlily pond collages, exploring various shades of blue and purple, and experimenting with mixed media techniques. This activity fosters their appreciation for Impressionist art and enhances their skills in visual expression.

Waterlily Wonder

MASTERPIECE APPRECIATION

Inspired by Claude Monet, this project, "Monet's Waterlily Wonder" celebrates the enchanting effects of light and colour in Impressionist art. Children will design and create their own waterlily pond collages, exploring various shades of blue and purple, and experimenting with mixed media techniques. This activity fosters their appreciation for Impressionist art and enhances their skills in visual expression.

Our Moments

Your son's artwork in our project was truly delightful. He experimented with different shades of blue using a roller, enriching the texture with mixed media elements. His enthusiasm for exploring and combining materials brought a dynamic quality to his waterlily pond collage.
